New Redding “National Match” Die Sets offered for 2010

Cortland, NY..... Redding Reloading Equipment introduces three new and innovative die sets for 2010. Redding is known for innovation and a policy of building what their customers demand and as a result, the “National Match” die sets were developed.

For 2010, Redding has met the direct need of the military match shooter with specialized die sets in 223 Rem, 308 Win and 30-06 Springfield. All three of these new sets feature a full length sizing die, a Redding Competition Seating Die and a taper crimp die for use in military match style semi auto rifles. These die sets have been established as the direct result of the requests of military match shooters who formerly bought the dies individually. Customers should know that these dies will be available shortly after the SHOT Show in retail distribution and that Redding Reloading Equipment will continue to support popular, shooting sports activities with innovative and appropriate reloading solutions.

Redding offers numerous unique solutions to improve the accuracy, consistency and reliability of your handloaded ammunition. For more information and a current color catalog contact: Redding Reloading Equipment 1089 Starr Road Cortland, NY 13045, or visit us on the web at: www.redding-reloading.com.
