New Redding Versa Pak Reloading “Kit”for 2010

Cortland, NY..... Redding Reloading Equipment introduces their new Versa Pak for 2010.

As the name implies the Versa Pak was created for versatility, offering all of the products a serious handloader needs, (without the press and dies), at a substantial savings over the cost of the individual items. This allows the first time or seasoned handloader to improve his or her experience with, not just the best equipment *but equipment best suited to his or her individual needs*. The Versa Pak includes all the items listed in the well respected Redding Pro Pak (less press and dies) plus a Model 3 Master Powder Measure, a 1400 XT Case Trimmer, Imperial Dry Neck Lube in Application Media, a starter size of Imperial Sizing Die Wax and our DVD, “Advanced Handloading, Beyond the Basics”. When mated with any Redding press and dies (many available in discounted packages) you can build the right package for a lifetime of service weather you intend to load for handgun or even the big Sharps rifle cases.

While getting started in reloading may look daunting the Versa Pak makes a great entry package into the reloading activity with all of the quality products and accessories you need, just add your favorite Redding press and dies. Like all Redding products the new Versa Pak will not only last a lifetime but have the features and precision to remain truly useful tools throughout your lifetime of reloading.

Redding offers numerous unique solutions to improve the accuracy, consistency and reliability of your handloaded ammunition. For more information and a current color catalog contact: Redding Reloading Equipment 1089 Starr Road Cortland, NY 13045, or visit us on the web at: www.redding-reloading.com.
